Scope and Contents of the Collection:

In 1997 the Surry County Genealogical Society began gathering information about local churches. After a poor response for charter members and church histories the Society began looking for information from newspapers, published books, published church histories, and clippings. This information coupled with photographs taken of each church comprises the collection known as Church Records. This information was published in a book entitled, *A History of Surry County Churches*, held in the Genealogical Collection. Not all the information or every church was put in the book, however that information is included in this collection. There is one miscellaneous file. These church histories were copied from the same unknown book. Several of the churches are not in Surry County. The file also contains a few newspaper clippings.
Arrangement of the Collection:

The files are arranged in alphabetical order by church name.
